## What is the SBA 7(a) Program?

The U.S. Small Business Administration 7(a) Loan Program is designed to help small businesses that are creditworthy but cannot qualify for a conventional loan. The SBA works with participating lenders to reduce their risk, increasing the likelihood of your loan's approval. Borrowers may use SBA-backed 7(a) loan proceeds for almost any legal business purpose. The loan can be used to purchase and/or improve real estate, equipment and inventory or provide working capital. Proceeds may also be used to refinance business debt, purchase an existing small business or franchise and finance partner buyouts.

<b>Max loan amount</b>	\$5 million
<b>Interest rate</b>	Variable, generally capped at Prime + 2.75%
<b>Guarantee</b>	50% to 90%
<b>Terms:</b>	Vary according to the loan purpose, generally up to 25 years for real estate or 10 years for other fixed assets and working capital
