What is the SBA 7(a) Program?

The U.S. Small Business Administration 7(a) Loan Program is designed to help small businesses that are creditworthy but cannot qualify for a conventional loan. The SBA works with participating lenders to reduce their risk, increasing the likelihood of your loan's approval. Borrowers may use SBA-backed 7(a) loan proceeds for almost any legal business purpose. The loan can be used to purchase and/or improve real estate, equipment and inventory or provide working capital. Proceeds may also be used to refinance business debt, purchase an existing small business or franchise and finance partner buyouts.

Max loan amount	\$5 million
Interest rate	Variable, generally capped at Prime + 2.75%
Guarantee	50% to 90%
